Press Release: Sovereign Funding Launches New Website

By Kathryn Sias

We've been in business over 15 years. Sovereign Funding has always had a rocking website. Having a facelift every now and again is a good thing. In the world, where the web is always growing, the more spectacular the audience, so shall the website be.

Sovereign Funding is proud of it's brand, it's way of doing business. The new website reflects how well we do to obtain and retain business, getting referrals from satisfied customers, knowing that we truly do give the best quote on the sale of your **structured settlements** and annuities.

As of midnight, tonight, 8/20/2011 the old site is still visible. In just a few short days you will see a website with a modern flair, and a cool photo blog with sophisticated conversations, articles, and posts, helping everyone understand just what a structured settlement or annuity is, who qualifies to sell a structured settlement, how quickly it can be done, and how soon you will get your money in one lump sum.

Along with the new website we have a new vanity phone number, 1855 E GO CASH so that you never have to try to remember our number again, and can pass it along to someone you know who has a structured settlement and needs cash today!

David Springer, owner of Sovereign Funding will also be hosting live webcasts onsite, via UStream.com These broadcast will run live straight from the website. We welcome everyone with questions to come into the live broadcast area to chat and ask questions directly to the owner himself.

For all our current clients, we thank you for your years of loyal support. We're now in a position where we can offer our new clients more than ever. Not only do we give you the best quote for a buy out on your structured settlements and annuities, but we can offer you smart blogs, teaching you how to use your money to make it grow. I'll bet you can't wait until Monday!

The real leader in structured settlements

David Springer

Columbia, Maryland
As any good man, I am family first, enjoying my children, teaching them success in everything from how to build and plenty about business. I am a professional structured settlement broker, a real leader in the industry of structured settlements with a nice size staff of attorneys and affiliates nation-wide. Our firm considers itself the real leader in structured settlements, because we truly care. Our firm offers non-stuffy lawyers and affiliates, though they know their business, they relate to the common man and families. We know you deserve the most for your settlement, and we're the ones to give it to you.

It is true that the success of a business will also depend on its visibility to others, which is why business websites on the internet are very important. I'm glad that you have pointed it out here, and described what your website is all about. It's worth checking out for sure.
